

From **May 6th to May 16th 2010**, the Mapping Festival will take place in Geneva, Switzerland. The Mapping Festival promotes Vjing, its culture and its connection to contemporary cultures. www.mappingfestival.com

This year the festival offers a Pro Area, a place giving a chance to all professionals of the VJing and audiovisual areas to be represented. You wish to be present during the festival to meet the public, the media and the professionals ? The Mapping Festival offers you a solution to guaranty the promotion of your products or activities. This exhibition area is exclusively reserved for Vjing, audiovisual and music professionals.

This show is for everybody and will propose every last technological development of the sector, providers, media, documentation as well as a bar. You will also be able to use the common stage for your showcases and demonstrations. It is the central meeting point and the window of Mapping Festival.

WHEN / WHERE ? From **May 13th to the 15th 2010**, three days during the Mapping Festival at Uptown Geneva.

FOR WHO ? Every professional in connection with Vjing : technical providers, hardwares, softwares, Vjing community...

PUBLIC ? Everybody who is connected with Vjing and live audiovisual: artists, VJs, architects, organizers, audiovisual professionals, Mapping's public.

Are you interested to be represented at the Mapping Festival Pro Area from May 13th to May 15th 2010 ? Don't hesitate to contact us for more information (prices, stands):
